

IMR C.E.M.S. Promotional Flyer

IMR® Environmental Equipment is a well-known AMERICAN MANUFACTURER located in St. Petersburg, FL. IMR® specializes in the manufacturing of gas/combustion analyzer products. We are interested in working with you and helping you to establish yourself as a dealer of IMR Products. Please review the below information about IMR®.

Our company designs and builds the following instruments in AMERICA:

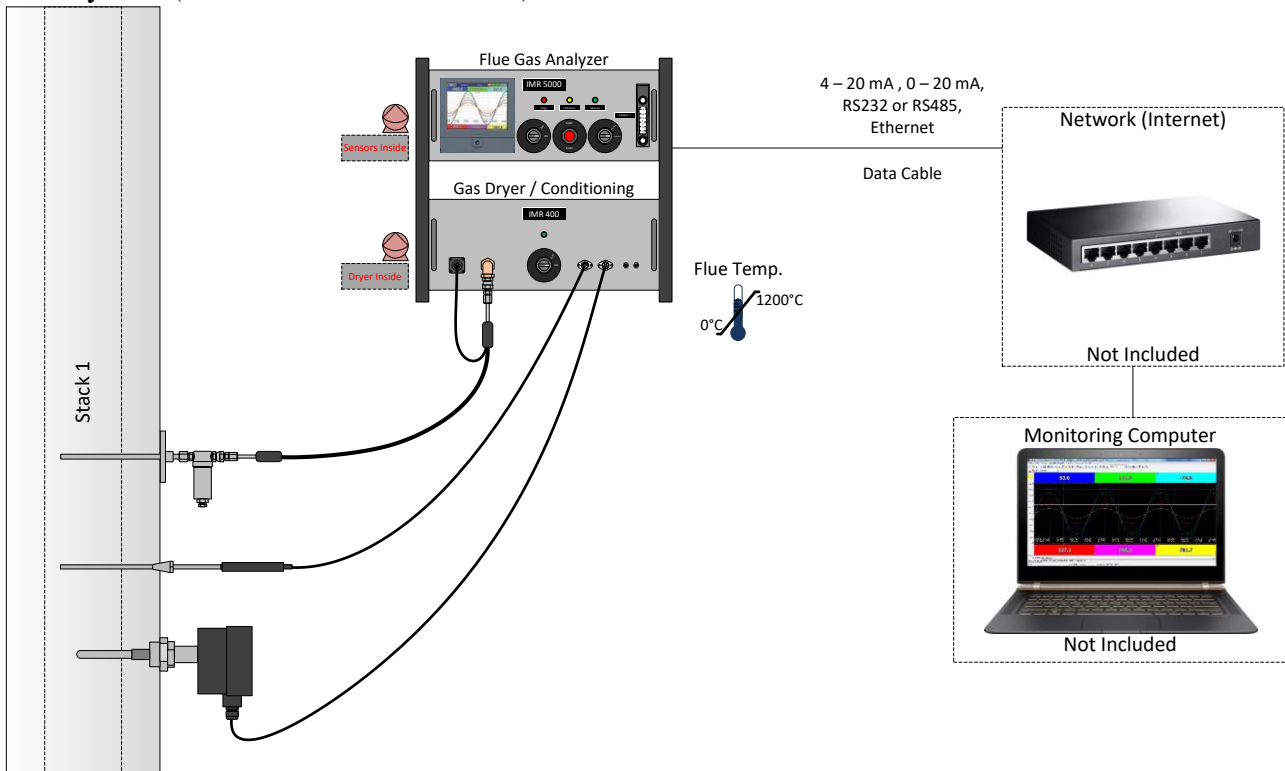

- Portable
- Handheld
- Stationary gas/combustion analyzers (CEMS)

Our company is also preferred around the world due to our ability of customizing each of our instruments to meet our customer’s project requirements, demands and needs.

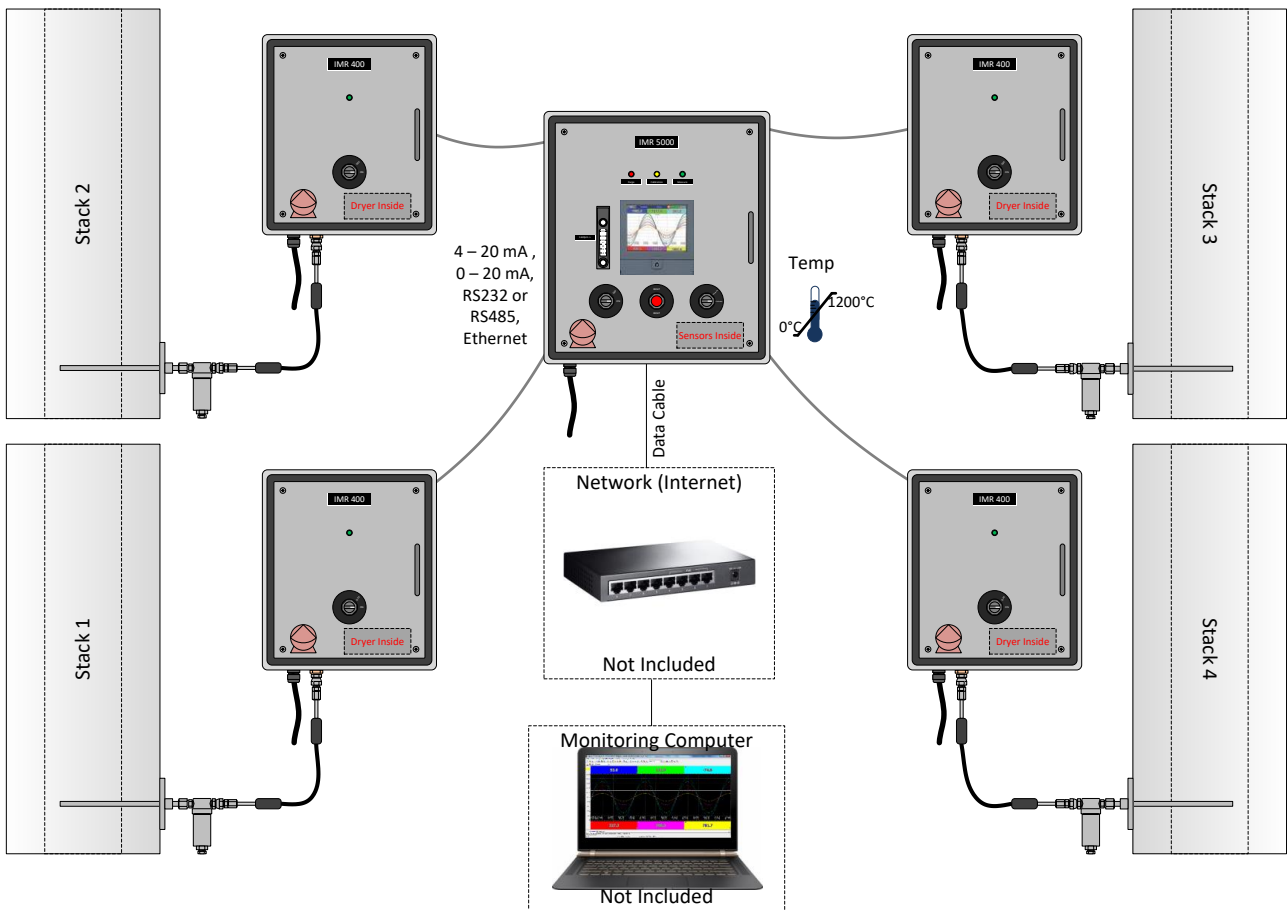

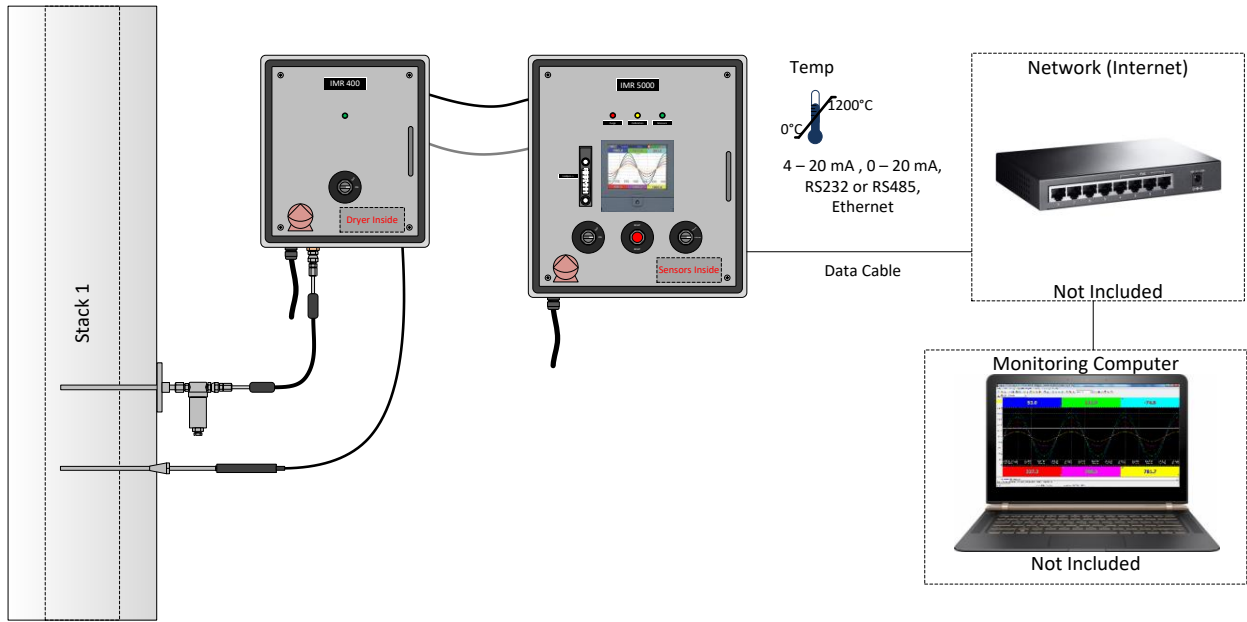

At IMR®, we pride ourselves in delivering/manufacturing high quality products and excellent customer service.

We would also like to introduce you to our new IMR 5000 CEMS (Continuous Emission Monitoring System).

Our CEMS can continuously and simultaneously monitor up to 18 parameters at one time. It is a completely customizable system. The system can be setup as a 19 inch rack mount unit, or a stand-alone system (floor mount or wall mount).

The flexibility of the IMR 5000 CEMS allows it to offer an endless set of possibilities to measure different parameters like CO, CO₂, NO, NO₂, CH₄, HC, NH₃, Cl₂, HCl, H₂, O₃, SO₂, H₂S, O₂, OC, OF, and other parameters on request.

Moreover, the IMR 5000 CEMS can calculate additional parameters like:

- CO₂ (O₂ Sensor must be installed in unit)
- Efficiency / Losses
- Excess air / Lambda
- Flue gas velocity
- O₂ reference

Other additional features that the IMR 5000 CEMS can offer include:

- Memory
- Real Time Data Transfer
- Software (Observer II) for hourly, daily, weekly, monthly and customized reports

For more information regarding our IMR 5000 CEMS or any other IMR products, you can visit our website www.imrusa.com or contact us by e-mail @ info@imrusa.com
